<b>19. Release Affected by this Change:</b> 6A		<b>20. Date due to Customer:</b> 30Jan03		<b>21. Estimated Cost:</b> None - Under 100K		
<b>22. Source Reference:</b> <input checked="" type="checkbox"/> NCR (attach) <input type="checkbox"/> Action Item <input type="checkbox"/> Tech Ref. <input type="checkbox"/> GSFC <input type="checkbox"/> Other: Please reference 6A07 PSR document , 914- TDA-228, for NCR list						
<b>23. Problem: (use additional Sheets if necessary)</b> Many new capabilities have been added to the ECS baseline with this release. With Synergy III, ASTER On Demand orders may be placed via the EOS Data Gateway (EDG). The EDG now will provide the following capabilities, which are not supported by the current ODFRM interface for ASTER On Demand orders. The Order Manager will enhance the ability of operators to manage user orders. It will also allow operators to deal with exception situations and errors such as large orders and orders that do not fit on the media selected by the user before they reach the ECS order processing subs.						
<b>24. Proposed Solution: (use additional sheets if necessary)</b> This Release is a complete delivery of the entire ECS System. Included in this release is a patch of the Synergy III custom code including performance enhancements for Bulk Metadata Generation Tool (BMGT), DataPool (DPL), Order Manager (OMS) and Order Tracking, and Spatial Subscription Server (SSS). One new Synergy III capability is included in this release. That new capability is ECS Data Gateway (EDG) access to DataPool (DPL).						
<b>25. Alternate Solution: (use additional sheets if necessary)</b> None						
<b>26. Consequences if Change(s) are not approved: (use additional sheets if necessary)</b> No new 6A07 functionality or fixes will be delivered.						
<b>27. Justification for Emergency (If Block 15 is "Emergency"):</b>
